

Dear Daniel,

After hiring two other lawyers for my son and not getting positive results, I was so frustrated with the system. I was in the courtroom for my son when I heard Daniel representing a client. He was so assertive with his representation that he seemed to take command of the hearing. I knew then that I had to call Mr. Raynak and hire him to represent my son. Mr. Raynak did such a thorough job in bringing all the facts to the courtroom, that the judge could not rule any other way but in favor of my son. I thank him for caring so much about my son that he was able to win his case. We will forever be grateful to him and always recommend him to people.
Thank you so much Daniel Raynak!

Sincerely
Paula N
